

PBESC Manure Compactor Instructions

- Load provided manure bin into the slot
- Turn the key on the control panel to the left (DUMPER)
- Push handle/lever on the control panel up to lift the bin and dump
- Push handle/lever on the control panel down to lower the bin
- Remove bin from slot
- Compactor will turn off by itself

HINT: Put about ½ bucket worth of water in bottom of bin prior to cleaning stalls to facilitate the emptying of the bin.
